

KUTTO PETER

Creative Designer

Graphic Design • 3D Visualization • Brand Strategy

Bridging client vision with execution across brand identity, spatial visualization and business development.

Why This Matters

Every great concept begins with a single question: What does the client actually need? I spend time understanding that gap and then I bridge it with design.

Across institutional and corporate clients, this approach has delivered: proposals that win, brand systems that endure, and visual designs that drive business results. This portfolio shows the work behind those results.

BACKGROUND & SCOPE

01

- 06 | Business Development
- 07 | Post-Production
- 08 | Operational Planning

ACUMEN ACADEMY

Large-Scale Commercial Workspace Design
Spatial Visualization & Execution

◆ Context

Comprehensive multi-zone commercial office design integrating modern minimalism with biophilic elements across & functional zones. Delivered photorealistic renders, material specifications and spatial branding layouts.

◆ Challenge

Balance professional aesthetics with employee wellness as a priority, while maintaining clear brand identity across multiple distinct zones.

◆ Solution

Developed an integrated design plan spanning workstations, meeting rooms, private phone booths, a quiet library, a collaboration zone and an organizational impact wall.

ACUMEN ACADEMY OFFICE PLAN

1 Workstations with an Ergonomic Plan

2 Dry Kitchen & Library Area

3 Private Phonebooths

4 Meeting Rooms

5 Collaboration Zone

6 Organizational Impact Wall

Execution Impact

Successfully translated the client's vision into a balanced, low-stress environment designed to foster daily productivity. A key highlight was the custom design of patterned country map artworks representing their operational regions, which received immediate client sign-off and were subsequently adopted into the organization's broader corporate branding assets.

SPIRO

Regional Office Branding System Environmental Design

Context

Consistent environmental branding system for regional office branches, including custom wall art, frosted glass graphics and 3D logo mockups across multiple rooms.

Challenge

Maintain brand consistency across regional offices while allowing localized expression and integrating brand identity constraints.

Solution

Created a flexible environmental branding package with room specific wall art, custom frosted glass and illuminated 3D logos. Each location received a distinctive treatment within one unified brand system.

Key Impact

By applying custom graphic overlays directly onto real site photography instead of building 3D models from scratch, we provided high-fidelity visual previews that matched the client's budget and tight timeline for an active, operational office.

CARLYSANA ANIMATION STUDIO

Institutional Proposal Design
Tier-One Corporate Clients

Context

Developed competitive proposal strategies, interactive deck templates and brand positioning for an animation studio competing for major institutional partnerships.

Challenge

Position the studio as a strategic partner across diverse clients while creating a modern proposal template that allowed deep customization without losing brand consistency.

Solution

Designed a proposal framework centered on partnership value, measurable outcomes and creative excellence. Built a modular interactive proposal deck with customizable cover, strategy, concepts, timeline, investment and team sections.

Key Impact

Improved proposal visual design, structure, clarity and submission speed while maintaining CarlySana's premium brand positioning. Supported in securing partnerships with major institutional clients.

SHEPHERDS HOSPITAL

Healthcare Institution Brand Identity
Multi-Touchpoint Branding System

Context

Institutional brand identity and comprehensive marketing and promotional items for a healthcare network across Nairobi and regional facilities in Narok, Maua and Lodwar. Scope included business proposals, employee systems, campaign materials and a social media strategy.

Challenge

Position the healthcare facility as a premium, accessible provider communicating trust, clinical excellence and community-centered values across official documents, employee materials, patient items and social media.

Solution

Developed a cohesive identity focused on accessibility, professional excellence and community trust.

SHEPHERDS MULTI-TOUCHPOINT BRANDING

Business Development Proposals

Full Marketing Branding Suite

Annual Notebook Design

Promotional Voucher Design

Print Branding

Impact

Strengthened institutional positioning and market perception, elevated the quality of visual brand design, improved consistency in documentation social media output and provided clear guidelines across all locations.

PROCESS & APPROACH

Every project begins with listening. Understanding the client's position, audience, success metrics and constraints that shape everything that follows.

From there, I translate complexity into clarity and design visual systems that work across every touchpoint, from a single logo mark to full-scale environmental installations and comprehensive brand suite.

I create precise design specifications that guide execution teams and ensure design intent survives from concept through delivery.

I prioritise strategic thinking and quality craftsmanship. Modern tools improve efficiency, but never override intentional design.

The result: Visuals that are both beautiful and strategically positioned.

Listen First

Understand client strategy, audience and metrics before designing.

Clarity Over Complexity

Simplify visual communication, never decorate without purpose.

System Over Singular

Design systems that scale, avoid one-off solutions. Minimum time a priority.

Quality Always

Precision execution on every project, every detail, every time.
